

## LETTER OF RECOMMENDATION

May 4<sup>th</sup>, 2026

To whom it may concern,

The Town of Pilot Butte values partnerships that support meaningful improvements to our community, and our experience with Herauf Modular reflects that standard.

Herauf Modular provided the Town with a modular accessible washroom and change facility for our Spray Park. This facility has become a valuable asset to our community and has enhanced the overall experience for residents, families, and visitors using the park.

Throughout the project, Herauf Modular demonstrated professionalism, reliability, and a strong commitment to quality. Their team was responsive, easy to work with, and consistently exceeded our expectations. We are very pleased with how the facility turned out and the value it brings to our community.

Based on our experience, we would confidently recommend Herauf Modular to other municipalities, communities, and organizations considering modular construction solutions.

Allen Mullen  
Chief Administrative Officer  
Town of Pilot Butte
