LETTER OF RECOMMENDATION

June 24th, 2024

To whom it may concern :

We at St. Theresa Point First Nation wish to express our appreciation for Herauf Modular's exceptional collaboration on the recent delivery for our Child & Family Services Office Building. This project has played a pivotal role in enhancing our community's childcare, health, and wellness facilities.

The endeavor involved transporting multiple units over challenging northern ice roads that highlighted Herauf Modular's logistical expertise and commitment to serving remote communities.

Herauf Modular's tailored approach ensured that the buildings were not only functional but also conducive to a safe and supportive environment for our children. Their sensitivity to our needs and the specifications required for child and family services facilities has been instrumental in creating spaces that support our community's developmental and wellness goals.

We are particularly impressed with the professionalism and adaptability Herauf Modular demonstrated throughout the project. The successful completion of this venture has significantly exceeded our expectations and has made a lasting impact on the health and welfare of our community members.

As we continue to improve our local services, we are grateful for Herauf Modular's partnership and look forward to future projects. This collaboration stands as a testament to the powerful impact of dedicated and well-executed community-focused initiatives.
